with big reminders for staff and those using PUBLIC facilities that mask must be worn at all times. And for swimmers that means mask is last thing off and first thing on before and after swimming. Wear clothes that you can remove w/ masks. And if you refuse to wear a mask while using the changing room, then do NOT use them—go home and get changed. NO one is special

Also today an employee at Ft Marcy man with big belly and sort of FU Manchu beard came into pool area with no mask. I was told he was an employee but did not get a name.

I also have not received no information on the employees who were at Chavez center clearing snow without masks. I asked which dept is responsible for these workers so I can get someone to address it and of course, I got no response.

YES with reminder that masks and social distancing required at all public facilities at all times except when actually swimming. Too many swimmers think they can whip off the mask after clearing the table in the pool area at Chavez and spend minutes getting ready to get into water including socializing. TU 4 men (lanes 17,11, 7 and 3) did this. Staff with backs to pool on cell phones or guard on chair ignoring the behavior. And yes you have to wear clothes that go over your head easily enough to keep the mask on. Also changing areas have signs but I have seen women nearly every time I go to use that area without masks. There needs to a way to make people personally responsible—sign paper saying they understand mask requirement and know two or more violations will result in loss of facility privilege

The guards at Ft Marcy today were doing a good job of reminding swimmers of mask is last thing off, first thing on today but an employee (male, big belly, FuManchu type of moustache/beard came into the pool area without a mask--UNBELIEVEABLE)

And I want to know what dept is responsible for those workers clearing the snow at Chavez without masks. I have never gotten an answer.
